

PRIT AMIPARA

Cyber Security Analyst | Network Security Enthusiast

ABOUT ME

Motivated and detail-oriented B.Tech Computer Engineering student specializing in Cyber Security with a strong foundation in Network Security, Ethical Hacking, Digital Forensics, and Secure Application Development. Skilled in Python, Java, Web Development, and cybersecurity fundamentals. Passionate about identifying vulnerabilities, securing digital assets, and solving real-world security challenges. Seeking an internship or entry-level opportunity to contribute technical expertise and continuously expand cybersecurity knowledge.

EDUCATION

Bachelor of Technology (B.Tech) – Computer Engineering

Institute of Advanced Research, Gandhinagar
June 2023 – October 2027

Higher Secondary Education (Science Stream A)

The School of Science, Rajkot

TECHNICAL SKILLS

Cyber Security: Network Security, Digital Forensics, Security Analysis

Programming Languages: Python, Java, C

Web Technologies: HTML, CSS, JavaScript, React.js

Backend & Database: Node.js, Flask, MongoDB, MySQL

Tools & Platforms: Git, GitHub, Linux, kali linux

Soft Skills: Problem Solving, Communication, Teamwork, Analytical Thinking

EXPERIENCE

Artificial Intelligence Trainer

Outlier | Sep 2024 – Jan 2025

- Evaluated AI-generated responses for accuracy, relevance, and quality.
- Provided detailed feedback to improve Large Language Model performance.
- Identified inconsistencies and ensured high-quality outputs.

CERTIFICATIONS

- Cisco networking academy-Networking basics
- DBMS Course - Master the Fundamentals and Advanced
- SQL Certification
- Career in Ethical Hacking / Cybersecurity Webinar
- TCS iON Career Edge – Young Professional
- Introduction to Programming Using Python
- Security Analyst Certificate Programme-Reliance foundation

PROJECT

Intelligent Match Recommendation System

- Developed an AI-powered dating application using Machine Learning.
- Implemented compatibility-based user matching algorithms.
- Technologies Used: React.js, Node.js, Flask, MongoDB, Scikit-Learn.

Spam Detection System

- Built a machine learning model to classify spam and legitimate messages.
- Applied Natural Language Processing (NLP) techniques for text analysis.
- Improved message classification accuracy through feature engineering.
